PROFESSIONAL EXPERIENCE

Finance/Accounting Intern **Jan 2026 – May 2026**

- *YMCA BC* – Vancouver, BC, Canada
  - Led an FP&A review of 2 years of general ledger data ($7.9M CAD in credit-card spend), combining Excel with custom Copilot workflows to accelerate data cleaning and vendor categorization while reconciling all outputs against source GL totals.
  - Analyzed credit-card spending across portfolios, expense categories, and vendors, identifying that grocery and retail vendors represented ~72% of 2025 card spend and developing recommendations to improve purchasing controls and consolidate vendors.
  - Presented findings and recommendations to the CFO, COO, and department managers, proposing preferred-vendor arrangements and GL-based credit-card controls to reduce fragmented spending and strengthen financial governance.
  - Reconciled A/R and A/P in Sage Intacct and supported payroll processing.

Bookkeeping Assistant & Cashier **Jun 2024 – Aug 2026**

- *Town Centre Ltd.* – Vancouver, BC, Canada
  - Reconciled invoices and POS data across 200+ daily transactions to identify discrepancies and support accurate financial records.
  - Supported store management with monthly revenue forecasting and budgeting using transaction-level data.

Finance Intern **May 2023 – Dec 2023**

- *PowerBuy Electronic Retail* – Ho Chi Minh City, Vietnam
  - Built Excel demand-forecasting models using exponential smoothing for the annual "Big Bang" sale, improving forecast accuracy by 25% vs. the prior method.
  - Managed A/R and A/P, validated 1,000+ purchase orders, and resolved invoice and payment discrepancies with vendors.
  - Used Excel to analyze monthly sales across 17 branches nationwide, recommending new reorder points that cut regional inventory carrying costs by 18%.
  - Supported month-end close by reconciling GR/IR accounts and investigating COGS and sales variances (totaling VND 5B+/month).

UNIVERSITY & PERSONAL PROJECTS

- **Discounted Cash Flow Valuation of Vinamilk (HOSE: VNM)** – *Personal Project*
  - Built a five-year unlevered DCF in Excel from five years of audited statements and the H1 2026 interim report, forecasting revenue, margins, capex and working capital by line item; derived a 9.55% WACC (CAPM with a Vietnam country-risk-adjusted equity risk premium) and applied a 3% terminal growth rate.
  - Valued VNM at VND 64,963 per share (12% above the VND 57,800 market price as of Oct 16, 2026) after a half-year stub-period adjustment and an equity bridge for cash, bank deposits, associates and non-controlling interest; stress-tested the result with a WACC / terminal-growth sensitivity table (VND 52,900 to 87,600) and documented every assumption and source.
- **American Option Pricing & Delta Hedging on AXON Enterprise Inc.** – *FINC 4380, Douglas College*
  - Built Excel-based Black-Scholes and binomial-tree pricing models for an AXON call option, calibrating implied volatility (69.15%) via Goal Seek and constructing a delta-neutral hedge requiring ~52 AXON shares per contract.
- **Stock-Trak Portfolio Management & Security Analysis** – *DSU Finance Club 2025, Douglas College*
  - Managed a $500K CAD simulated portfolio over 9 weeks across equities, ETFs, options and crypto; bought NVDA calls after the Jan 2025 DeepSeek sell-off on a market-overreaction thesis, exiting at a ~30% net gain in under 2 weeks.
